Content

OVERVIEW

Objective

clinic management is a web application developed to simplify the communication process between the doctor and the receptionist.

System Workflow

The application enables a doctor and a receptionist to manage patient data, prescriptions, and histories, ensuring seamless communication and record-keeping.

TECHNOLOGIES

01

Front –End:
Jsp, Html, CSS, JS.

02

Server-side:
Servlet

03

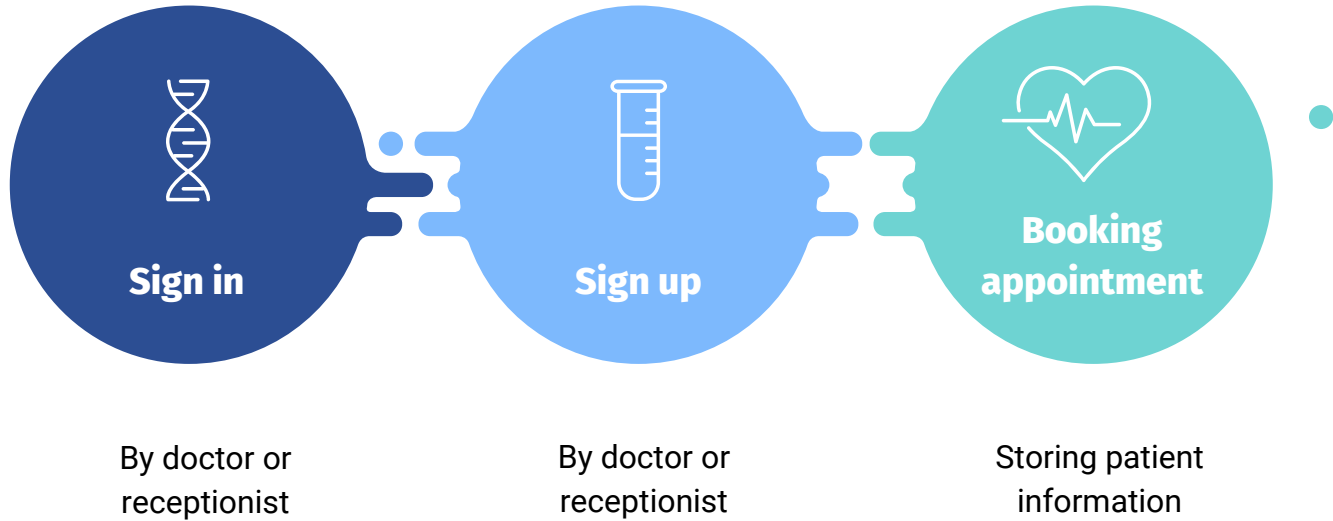

Back-end:
MYSQL

04

Server:
Apache tomcat v9.0.89.

FEATURES

FEATURES TO ADD

Display appointments page

Displaying doctor calendar of appointment and link it with the booking page to detect the free appointment time
